

JEDER EINZELNE ZÄHLT

DKMS Kressbach 1 · 72072 Tübingen

Tuebingen, July 20, 2006

To whom it may concern!

This is to confirm that the charge for stem cells (bone marrow or peripheral blood stem cells) from a DKMS donor is € 9,720.00.

Currently, DKMS is involved in the donor search for Maria Kokschina. DKMS will probably be able to make limited funds available for this Russian patient through the foundation "DKMS Stiftung Leben spenden" (DKMS Foundation of Giving Life) in case it is not possible to bring up the abovementioned sum of € 9,720.00 per stem cell donation completely. However, in any case financial support by the foundation will be restricted to the half of the total charge at the utmost.

Therefore sponsors can help by donating money to the following account that was established for the specific purpose to help Russian patients in need of a stem cell donation.

Receiver: Deutsche Stiftung Leben spenden

Bank: Kreissparkasse Tuebingen

Bank Code Number: 641 500 20

Account Number: 242 89 89

For international bank transfers:
International Bank Account Number (IBAN):
