Cost Estimate 2

Name of Patient: Kislichnaya, Aleksandra
Birthdate: 27.04.2003
Admission Number UKA: 1082040362

Medical diagnosis that causes treatment:

Osteoblastic Osteosarcoma of the left femur

- diagnosis March 2008
- start of chemotherapy in April 2008 following the European Osteosarcoma Protocol
- Borggreve operation in July 1st 2008
- Prolonged wound healing
- Since August 2008 consolidation chemotherapy

Leading senior physician: Prof. Wagner / Prof. Mertens
Medical specialty: Paediatric Oncology
Phone: 0049 241 8088892
Fax: 0049 241 8082492

Anticipated treatment plan or procedures:

Recently, ten further cycles of chemotherapy including high dose methotrexate are planned. During the time of postzytostatic leukopenia relapses of the abscess in the operation region must be taken into account.

If no severe complications occur, the treatment will be finished in the end of 2008.

Estimated costs of medical treatment

including

Hospital Treatment ca.(DRGs for chemotherapies, operations and additional fees for expensive drugs)	27.000	€
Costs of management per inpatient treatment	270	€
Accommodation of an escort person 45 € / day		€
Senior physicians' fees ca.	17.000	€
Costs of outpatient treatment in the UKA (drugs) ca.	5.000	€

Total amount: 50.000 €
Credit Balance: 25.000 €
Prepayment requested: 25.000 €

Remarks:

The cost estimate is done under the condition that the course of treatment is normal. If severe complications occur or if stem cell transplantation will be suggested, the costs of hospital treatment can be markedly higher.

The UKA will invoice only really produced medical services according to the course of treatment. The rendering of accounts correspond the German-DRG-System and The German Medical Fee Index. Not needed money from the advance payment will be refunded as soon as the final invoice is ready.
